Agenda Item I - Crown Atlantic Cellular Telecommunications Tower 8005 Sheridan Drive

Gerry Brophy from Crown Atlantic introduced his site plan to the board and explained the history of locating a tower in this area of Town. He was previously to the board on the property just to the East but the deal fell through. There is an existing temporary cell tower on the property for Cricket Communications that measures 70' in height. The proposed permanent tower height is 95' and will hold at least four carriers immediately. Crown is negotiating with a fifth company. The tower is constructed of steel.

The site would be landscaped heavily with existing vegetation and they will be adding additional buffer to the Motel property and Sheridan Drive. This proposed action is considered Unlisted under SEQRA regulations.

ACTION: Motion by Wendy Salvati, seconded by Dan Michnik, that the board recommend that the Town Board issue a Negative Declaration on this proposed action based on the EAF part I & II.

VOTING: All Ayes.

MOTION PASSED

Meeting adjourned @ 7:30 p.m.
